

MR. REELEY'S FOUNTAINS CONTINUED:—

ITALIAN DESIGNS:—

A plain ground basin of this plan; in the circular portions are set three boys with fish on their hands, jetting water into a vase in the centre about 36 0

The fountain as erected for the late Lord Montagu at Ditton-park, a Roman vase with Tritons and plain ground basin; 16 ft. diameter... 30 0

An elaborate design for a PUBLIC FOUNTAIN, as follows: a ground basin 40 ft. diameter, surrounded by a terrace of four steps, on the piers of which are four couchant lions, 6 ft. long. The centre piece consisting of three tazzas supported by figures of boys, crocodiles, and mermaids; entire height about 40 ft. 300 0

Centre piece consisting of a Tazza, 7 ft. diameter, supported by four Herons, and an upper vase and flower; height 9 ft. (exclusive of ground basin) 60 0

Another design, consisting of a plain bowl 12 ft. diameter, from which the water is discharged through four Lions' heads. In the Tazza rise two others of a similar form 7 ft. diameter, and 4 ft. 6 in. diameter 70 0

An enriched Ground Basin, 10 ft. diameter, as executed for the dairy garden, Arundel Castle, with a centre group as follows: a cluster of arabesques and three full-sized storks supporting a leaf Tazza, 5 ft. diameter, in which is set a centre flower with side florets; entire height, 9 ft. 6 in. 85 0

Three Tazzas (Medici pattern), supported on the tails of three entwined griffins, in a ground basin 7 ft. diameter; height, 5 ft. 4 in. 28 0

Leaf Tazza, 5 ft. diameter, supported by a round fluted pedestal, and surrounded by a vase and flower; height, 5 ft. 9 in. 18 0

Ground Basin, 9 ft. diameter, and two Tazzas, 3 ft. and 1 ft. 10 in. diameter; the whole perfectly plain 20 0

An enriched Ground Basin 8 ft. diameter, in the centre of which rises a twisted cable as a pillar supporting a shell, and boy with dolphin; height, 6 ft. 19 0

A plain Ground Basin, 10 ft. diameter, and in the centre an octagonal shaft supporting a shell; around the shaft are set four separate dolphins made to jet 27 0

An enriched Ground Basin 12 ft. diameter, in the centre a large figure of a heron holding a fish in his mouth 29 0

* This design requires very little water.

A set of plain Tazzas, the several diameters being 8 ft., 5 ft., 3 ft., 1 ft. 10 in.; height, 11 ft. 36 0

A Tripod Pedestal, on which stand three figures of Atlas supporting a flat bottomed basin, enriched with sculpture of dolphins, &c., and in the centre a tulip vase (to suit a ground basin about 10 ft. wide) 36 0

A plain Ground Basin, 12 ft. diameter, 2 ft. deep, with a plain Tazza for the centre, supported by storks 30 0

* Sometimes a small fountain is required for a garden, where the usual one cannot be afforded for a ground basin. In such a case the following sign may be appropriate, viz.:—

A round moulded Pedestal, about 2 ft. diameter, supporting a scalloped basin 6 ft. wide, in the centre of which is placed a lotus flower entwined by a snake, the whole standing on gravel, and about 6 ft. high 25 0

ELIZABETHAN:—

A design by Mr. Papworth, erected at Wilton Castle, consisting of a Tazza and Pedestal supported by dolphin trusses, the ground basin being 13 ft. 6 in. diameter, the sides enriched by characteristic paneling, and each pier surmounted by a rampant lion. The whole height of the fountain 12 ft. 6 in. 90 0

A similar design erected at Arundel Castle, the ground basin being 20 ft. diameter 110 0

A pair of Tazzas supported by festooned legs, the larger 6 ft. diameter, and the upper one 3 ft. 10 in., and a plain ground basin 15 feet diameter 60 0

A similar design, the Tazzas being 4 ft. 6 in., and 2 ft. 9 in. diameter (exclusive of ground basin) 11 0

WELL PATTERNS:—

An elaborate design, consisting of a ground basin of a shell pattern 10 ft. diameter, and centre piece as follows:—a plain base, around which are arranged shells to receive the jets from four dolphins connected with a pedestal, on which a circular shell 6 ft. diameter, and supported by boys, stands. In the shell is a Triton jetting from his shell 200 0

A Tier of Three Shells, each supported by rockwork and dolphins. This design can be executed of several sizes 4 0

Three entwined Dolphins, supporting on their tails a cluster of shells, and surmounted by a cornucopia, from which the water jets; with a plain ground basin rim, 16 ft. diameter 36 0

A circular Shell 12 ft. diameter; in the centre of which rises a column of rockwork supporting a round shell 5 ft. 2 in. diameter, and Triton figure 80 0

A plain Ground Basin 8 ft. diameter, and shell 3 ft. wide, on an enriched pedestal; 4 ft. high 18 0

A Cluster of Three Shells, each 3 ft. wide, reared on rockwork 10 0

A Flower emerging from a cluster of bulrushes, surrounded by three storks, and placed in a circular shell 5 ft. 2 in. diameter, with a ground basin of shell pattern 14 ft. diameter. The whole height 7 ft. (executed for Newby Park) 34 0

Three entwined Dolphins, supporting a shell 3 ft. 8 in. diameter, in which a lotus flower jets (no ground basin); height 5 ft. 8 in. 25 0

Three larger Dolphins and proportionate shells, in which is a Triton figure, with a plain rim for ground basin 18 ft. diameter; height, 9 ft. 6 in. 76 0

GOTHIC:—

A design executed for H.R.H. the Prince of Prussia, consisting of a Gothic Pinnacle, and three tiers of jets 40 0

A plain Gothic Tazza suitable for a dairy, 3 ft. diameter 4 0

A Battlemented Hexagon Pier, with six canopied niches, from which lions' heads discharge the water which falls within the battlements at the top; height, 6 ft. 30 0

A design similar to that at Fonthill; vase in Tazza, in ground basin 16 ft. diameter, surrounded by a Gothic balustrade 50 0

A set of Three Octagon Tazzas with figures to jet at each angle, and finial at the top in ground basin 13 feet diameter 34 0

A Gothic Pinnacle, 16 feet high, in ground basin, 20 feet wide 110 0

RUSTIC:—

The Neptune Fountain, with Triton and Sea-horses 120 0

SUITABLE FOR CONSERVATORIES:—

A Bowl like the print, 6 ft. diameter; and pair of Tazzas for the centre. The whole to stand 6 ft. high from the floor 15 0

N.B.—If 6 ft. is too large, a similar design can be executed on a smaller scale.

A Tazza in the Elizabethan style, 3 ft. 6 in. diameter, on a suitable pedestal; height, 4 ft. 6 in. 9 0

An enriched Pan or Ground Basin, 4 ft. 6 in. diameter, to be used for aquatic plants. In the centre a stone basket of wicker pattern, from which rises a cluster of white lilies, executed in copper, and painted like nature. The lilies support a glass fish basin, in the centre of which is a quiet jet of water: executed for the late Sir P. Sykes 30 0

A Ground Basin, 10 ft. diameter, with moulded base and Tazza for the centre, 3 ft. 7 in. diameter, and small centre flower; 6 ft. 8 in. high 24 0

A Grecian Tazza, 3 ft. diameter, on a round pedestal (this basin is deep enough for gold fish) 6 0

A Ground Basin with enriched rim, 7 ft. diameter, and a centre flower with florets; height, 4 ft. 21 0

A Bowl with scalloped rim, 6 ft. diameter, in the centre three entwined griffins, supporting a cluster of shells; height, 5 ft. 6 in. 26 0

A Ground Basin, enriched with sculpture in the Roman style, 4 ft. diameter, on lion's claws (iron). In the centre a small leaf Tazza elevated on a stalk and lotus flower 12 0

The Pantheon Fountain, designed by S. Hensirke, Esq. 36 0

A Roman Ground Basin enriched with leaves, and wreathed tazza, 5 ft. 6 in. diameter, with lotus flower for the centre; the whole 4 ft. 4 in. from the ground 28 0
